GSW108

Managed Gigabit PoE switch

Copper ports	8 x Gigabit RJ45 PoE
Fiber uplinks	2 x Gigabit SFP
PoE supply	48 V PoE; 120 W total power
Switching capacity	20 Gbps
Forwarding	Store-and-forward
MAC table	8K entries
VLAN	4K VLANs; port, MAC, IP, protocol and voice VLANs; QinQ
QoS	8 queues; WRR, SP and WFQ scheduling
PoE management	Port on/off, total power setting, scheduling and powered-device status
Port controls	Flow control, rate limiting, storm suppression, link aggregation and loop detection
Management	Web, CLI over serial, Telnet or SSH; SNMP v1/v2c/v3
Authentication	802.1X, RADIUS and TACACS+
Network controls	DHCP relay and snooping, ACLs and ARP protection
Controls	VLAN DIP switch and reset button
Dimensions	220 x 162 x 43.2 mm
